Open Class Rules (Limited to Farm, Modified, Pro-Stock & Super Stock Tractors)

1. All tractors entered in this class must have working safety kill switch on back of tractor. Tractors will be checked for working kill switches prior to pulling. Tractors must have transmission safety scatter blankets. Tractors must have wheelie bars.

2. Tractors must be weighed-in prior to start of contest. Weight will be taken with operator on tractor. The flagman will have the option to spot re-weigh any contestant.

3. No RPM limit.

4. No pace.

5. No dual tires allowed. No four wheel drives allowed.

6. Committee has the right to reject any tractor they feel is unsafe for competition.

7. Tractors must have fenders and side shields.

8. Drivers must wear helmets and fire suit.

9. Tractors must be equipped with wide front ends.

10. All weights must be secured to tractor. Any external parts or weights lost or excessive fluid loss (coolant, oil, or fuel) will be grounds for disqualification.

11. Hitches must be 1" thick, have a 3.5" diameter hole that is 1" from the rear of the hitch.

12. Fire extinguishers are mandatory!

13. Tractors must **have all safety equipment as listed in Hot Stock** rules.

14. Wheelie bars and drawbar should not be connected in any way.

15. Tractor should be equipped with bars connecting rear axle to frame rails.

16. Front end skid bars are mandatory.
